

**Title: Risk Control Consultant****Location:** Davenport, Iowa**Summary:**

This is a tremendous opportunity for an experienced professional in a safety/risk management position with a top 10 insurance brokerage. This position will utilize their skills to assist our clients in not only identifying risks, but to also develop and implement corrective actions. We are looking for someone to work hand-in-hand with our clients from concept to completion. Activities include inspecting insured properties to evaluate physical conditions/designs, performing safety training, reviewing and developing safety programs, along with promoting applicable safety programs and agency resources to our client base.

**Essential Duties & Responsibilities:**

- Candidate will work primarily with multiple business types throughout our client base.
- Work with our loss control team to coordinate loss prevention service plans and assist in the reduction of primary loss drivers related to Workers Compensation, Property, General Liability and Fleet exposures.
- Evaluate client loss data to effectively identify the client's primary loss drivers.
- Facilitates compliance with loss control recommendations from Assured Partners or insurance carriers to promote a long-standing partnership.
- Maintain favorable relationships with clients and company personnel. Takes prompt action to resolve any complaints or other problems and inform the Insurance Agent of any issues.
- Consults with clients as directed on OSHA or other regulatory issues. Assist in equipment and facilities planning and other areas affecting the insurability of the client.
- Effectively manage insurance carrier loss control services to maximize client service options.
- Assist in the development and maintenance of location insurance mapping as required.

**Requirements:**

- College Degree in Occupational Safety or a related degree, or equivalent experience. Insurance loss control experience or private sector safety experience is desirable.
- Ability to communicate effectively in writing and verbally using virtual and traditional applications.
- Comfortable in presenting to various client and industry groups.
- Ability to travel up to 30% of the time.
- Must have a valid driver's license and good driving record.
- Must be well organized and have the ability to manage several projects simultaneously.
- Ability to learn OSHA, NFPA, DOT, EPA Regulations as they apply to our client base.
- Ability to develop a working knowledge of insurance coverages.
- Good working knowledge of Microsoft Office software required.
- Knowledge of state regulations of long term care facilities is desirable.
